Portable Soil Irrometer Tensiometer

Model **MSCTU150SWISS, MSCTU300SWISS, MSCTU450SWISS, MSCTU600SWISS, MSCTU900SWISS, MSCTU1200SWISS** | Brand **Master Science**

Tensiometer

The Portable Soil Irrometer Tensiometer is a reliable and effective tool for measuring soil water tension, aiding in optimal irrigation management for agricultural and horticultural applications. The device offers precise readings in a wide range of soil conditions, ensuring efficient water usage.

Key Features

- Standard lengths are based on the transparent polycarbonate tube in the center of the tension meter tube. Custom lengths can be provided to meet specific user requirements.
- Measures soil water tension within a range of 0 ~ 1 Bar (100 KPa), ensuring precise water management.
- Designed for ease of transport and usage in field conditions, with compact and durable construction.
- Built with high-quality materials for long-term reliability and consistent performance in various environments.
- The Portable Soil Irrometer Tensiometer is an essential tool for efficient water resource management, helping users optimize irrigation practices to improve crop health and yield.
